

Feedback + Research Meeting

CS499/579 :: Empirical Computer Security

Zane Ma (he/him/his)

2024.11.04

Announcement

Sign up ASAP for research update meeting this Friday, November 8!

Final project presentations will be Tuesday, December 10 from 2-3:50PM in KEAR 124 (Normal classroom).

Research Meeting Expectations

3-4 slides total

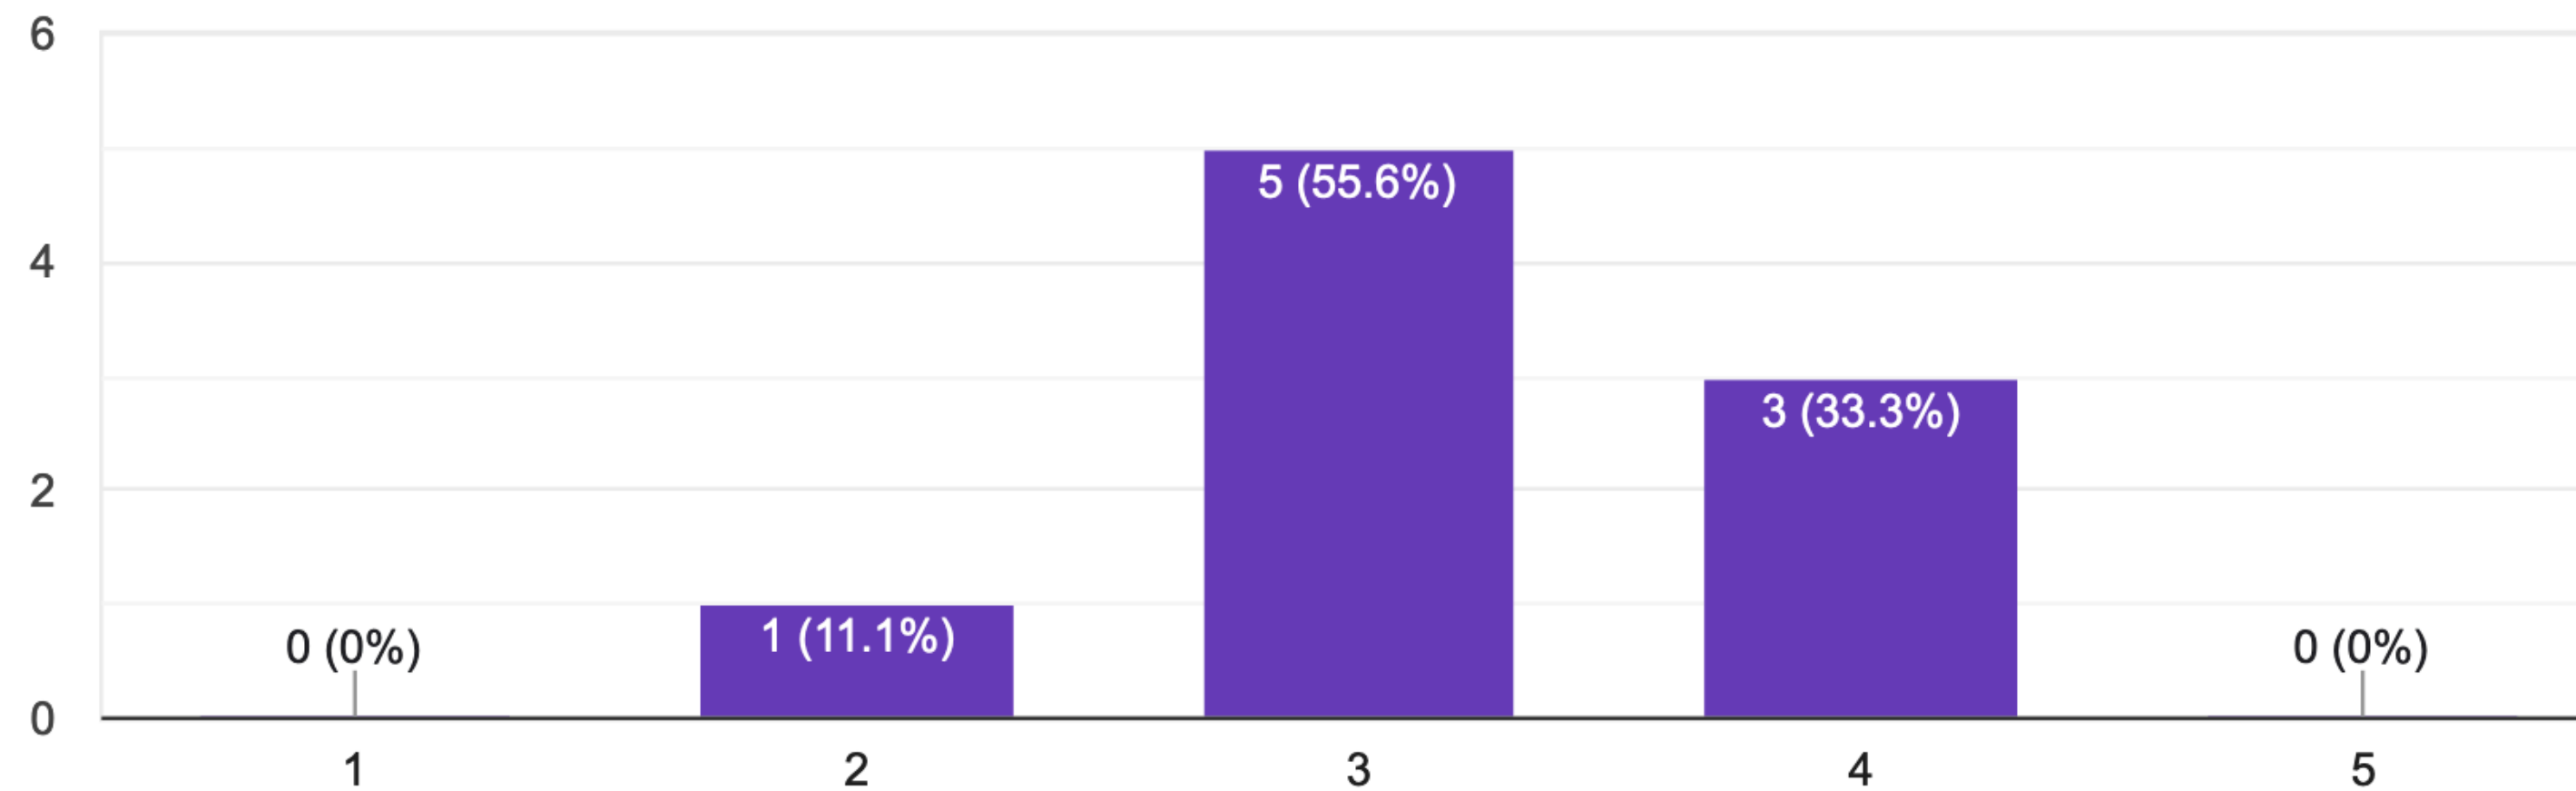

1 slide with recap from last meeting

1-2 slides with progress - what have you actually done?

1 slide with tasks + timeline for remaining weeks

Content difficulty

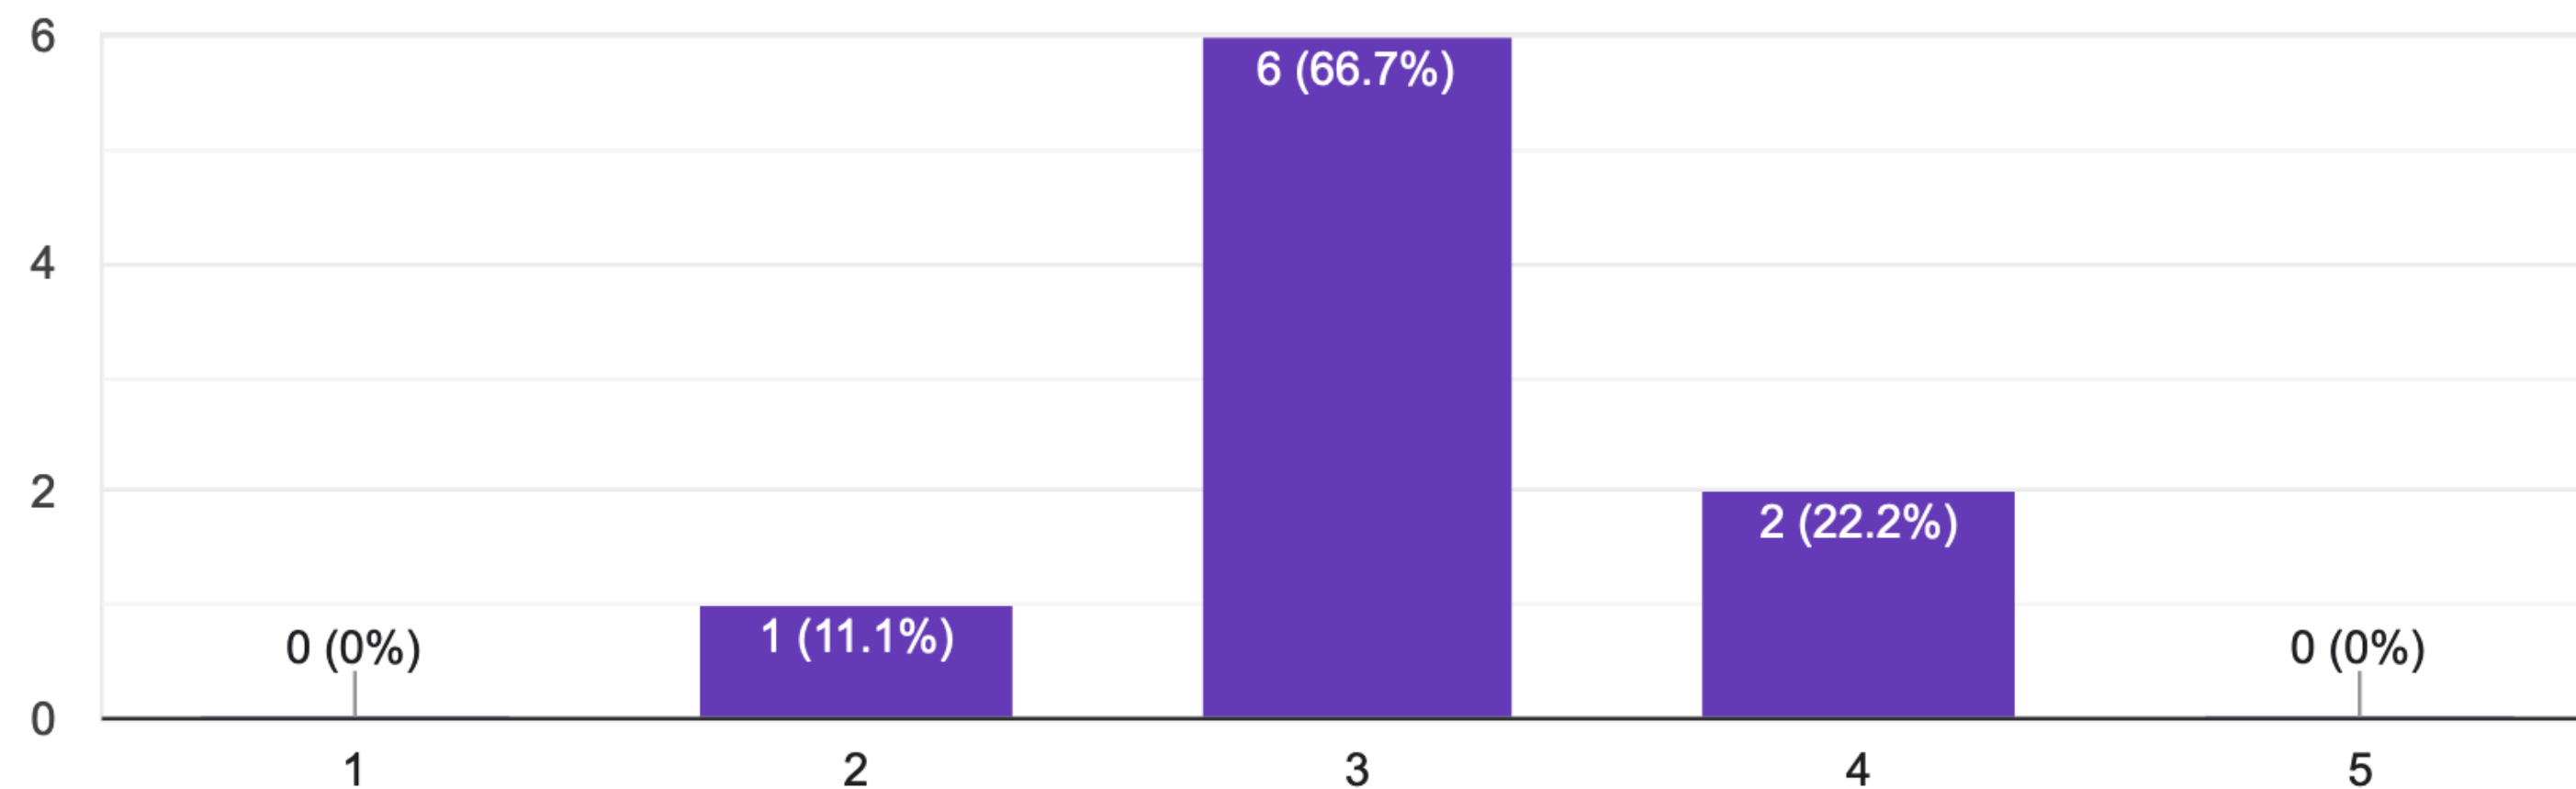

Papers

Too easy

Too difficult

Presentations

What people enjoy

Interesting content + discussion (6)

Final Project (2)

Fair workload (1)

Learning obstacles

Presentations are too into the weeds (1)

Will work with presenters to provide more background knowledge

No in-class time to work on research (1)

Not part of in-class schedule, but we often end class 20-30 minutes early

Assigned paper is not aligned w/ personal interests (1)

The paper preferences should account for this - maybe include abstracts?

Suggested improvements

Reading questions on the canvas assignment calendar (2) ✓

Smaller research assignments throughout the term (1)

Sign up for research meeting this Friday! And optional 2nd check-in

Update papers to be more recent (1)

Will continue to do this for future years

Fewer reading Qs to reduce workload, and most unanswered by presenter (1)

Will give everyone an additional free pass, for a total of 3 free passes.
